

安装questasim

转自<https://bbs.eetop.cn/forum.php?mod=viewthread&tid=913460&highlight=questasim>

0. install dependencies in ubuntu 20

```
sudo apt install libxft2 libxft2:i386 lib32ncurses6
sudo apt install libxext6
sudo apt install libxext6:i386
```

1. lic gen

```
python2 mgcligen.py <hostid>
```

license.dat is generated

2. install questa sim

```
./questa_sim-2021.2_1.aol
```

3. copy file into install dir, then execute

```
./pubkey_verify -y
```

4. config env variable

```
export PATH="/path/to/questasim/linux_x86_64":$PATH
export PATH="/path/to/questasim/RUVM_2021.2":$PATH
export LM_LICENSE_FILE="/path/to/license.dat":$LM_LICENSE_FILE
```

Done !!
