

取消文本自动替换

打开文件conf/entities.conf 将不需要的自动转换用#号注释掉

```
# cat entities.conf
# Typography replacements
#
# Order does matter!
#
# You can use HTML entities here, but it is not recommended because it may
break
# non-HTML renderers. Use UTF-8 chars directly instead.

# <->      ↔
# ->       →
# <-       ←
# <=>      ↔
# =>       →
# <=       ←
# >>       »
# <<       «
# ---      —
# --       —
# (c)      ©
# (tm)     ™
# (r)      ®
# ...      ...
```
